# OVARIAN CANCER Symposium

## Professor Aikou Okamoto 岡本 愛光 教授

- **Chief Professor, Chairman, Department of Obstetrics and Gynecology, Jikei University School of Medicine**
- **President, Japanese Gynecologic Oncology Group (JGOG)**

**Professor Aikou Okamoto** is an internationally recognized gynecologist in Japan. He is the Chief Professor and Chairman of the Department of Obstetrics and Gynecology in the Jikei University School of Medicine, Minato, Tokyo, and the current President of Japanese Gynecologic Oncology Group (JGOG). Prof. Okamoto received MD degree in 1986 from Tokyo Jikei University School of Medicine, and then he received a PhD in Medical Science in 1992.

Professor Okamoto has a portfolio of national and international gynecologic appointments, major research projects and clinical trials. He is an active member of GCIC and FIGO, as well as served as one of executives in JSOG, JSGO and JGOG since 2013, 2014 and 2022 respectively. JGOG is a non-profit clinical research group that works with major universities and cancer centers in Japan with effort to establish the latest and most suitable diagnostic and therapeutics for patients with gynecologic malignancies. Prof. Okamoto manages all types of gynecologic malignancies including cervical cancer, ovarian cancer, and endometrial cancer. He is also engaged in major national and international scale clinical studies, and with research focuses on clear cell ovarian carcinoma. Prof. Okamoto has published over 300 journal articles and over 10,000 citations noted.
